Docket No. SW-01303A-09-0343  
W-01303A-09-0343

**ORIGINAL**

To Whom It May Concern:

Attached for consideration by the Commissioners and for inclusion in the above-reference docket are approximately 1,389 signatures of Anthem residents urging the Commission to reject reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District for the reasons set forth in the attached. Original signatures are available for examination at the Commission's request.

Sincerely,

Roxann S. Gallagher  
Sacks Tierney P.A.

community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to **reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.**

*In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.*

*No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.*

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to **reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.**

*In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.*

*No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.*

**For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.**

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

*In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.*

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. ## **Oppose Reconsolidation with the Agua Fria Wastewater District**

### **About this petition**

The undersigned residents of the Anthem community implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District. In 2012 the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

- 
1173. Name: Michael Fina on 2014-08-29 14:47:11

Comments: When is enough will be enough? The residents of Anthem have been consistently getting gouged by this water company for the past 10 years beginning with Arizona American Water, now Epcor! I've heard every lame excuse in the world why they should raise rates, almost doubling water bills. While in places like California have bigger legitimate problems, like drought, only raise rates ~5%. The way the ACC have made their decisions in the past, mostly against Anthem residents, these politicians seem to be bought off by big corporations so the little guy takes it in the rear! In my opinion, these people should be in jail!

Comments: Consolidation of the regional Epcor system has some financial merit & would give incentive to run the entire operation as efficiently as possible.  
Reconsolidating the Agua system with the larger Anthem one sounds like a scheme for the parent company to recoup operating losses not obtained through ACC Agua rate increases.

- 
1325. Name: Charles E Filteau on 2014-09-05 00:04:13  
Comments: I purchased a lot and had a home built in Anthem in 2002. One of the reasons I did so was the promise of water. Never, in my most horrible dreams, did I believe that someone would purchase the rights to our water and then try to consolidate our water district with another district (Agua Fria) just so that we could help finance the Aqua Fria district to reduce their costs at the expense of increaing our costs. IT JUST ISN'T FAIR. Their water district is miles from us.
-

1388. Name: Daniel Russell on 2014-09-05 15:42:15  
Comments: I watched what you did with regard to increasing our electric utility rates. It actually COST us money to do what you told us to do by CONSERVING OUR UTILITY USE. Now you are planning to increase our water rates so residents in other communities can lower their utility rates. If you do this I promise to do EVERYTHING I can to unseat you in COMING ELECTIONS, even if it COST US MONEY to do so. I intend to build an Anthem Tea Party "Advocacy Campaign" to unseat you if you approve a plan that raises our wastewater cost so residents in other communities can lower their rates. This type of "thinking" is not what we voted you into office to do. Trust us, we mean this.

# anthem

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.

## community council

We, the undersigned residents of the Anthem community, implore the Arizona Corporation Commission to reject the reconsolidation of the Anthem Wastewater District and the Agua Fria Wastewater District.

In 2012, the Commission determined that consolidation of these two geographically remote and separate districts that do not share treatment facilities was "completely arbitrary" and did not result in wastewater rates for Anthem customers that were just and reasonable as required by Arizona law. The Commission also stated that it was in the public interest to deconsolidate Anthem from the Anthem/Agua Fria Wastewater District, "in order to preserve the integrity of settlement negotiations that occur in Commission proceedings." These thoughtful and fair conclusions, which considered all effects of deconsolidation including elevated rates for Agua Fria wastewater users, remain true today. Not one fact has changed. Not one new fact has come to light.

No Agua Fria petitioner has proposed reconsolidation of the Anthem/Agua Fria Wastewater District. Sun City West is adjacent to Corte Bella, shares treatment facilities, and has approximately 15,000 customers to share wastewater costs. Sun City West residents, who enjoy among the lowest water and wastewater rates in the State, unfairly pay significantly less than Corte Bella residents for the same service from the same facility. A consolidation with Sun City West would seem a fair and reasonable solution for elevated Agua Fria wastewater rates. On the contrary, reconsolidating Anthem back into the Agua Fria Wastewater District would cause the roughly 8,600 Anthem residents, who already pay among the highest combined water and wastewater rates in the State, to pay \$2.4 million annual subsidy for costs undisputedly related to Agua Fria's geographically remote wastewater treatment facilities that we do not now and will not ever use. Reconsolidation of the Anthem/Agua Fria Wastewater District is clearly not the right solution for Anthem or Agua Fria.

For the reasons stated above, the undersigned will vigorously and publicly oppose any effort by the Commission to reconsolidate the Anthem/Agua Fria Wastewater District.
